

## **MEAT EXPORT - NATIONAL DEVIL**

Meat sector in India is growing blooming on Tax payers Money. Tax payer's hard earned money is taxed for private profit of butchers. Politicians – Butchers unholy nexus is well known. Politicians are parking their Black money in Meat Sector due to its rapid growth and are actually exporting profit (Money via Meat) in foreign countries. The sector is running by tax payers and benefited to Private. Nation, Nature Citizens and all kind of Resources are at irreparable loss. Irony is yet why so huge subsidies to this sector is not withdrawn? Citizens of this Nation have lost the Right to ask, pressurise and persevere to their representatives (MPs , MLAs, MLCs, Cooperators ) to withdraw these subsidies immediately as they are paying tax for Nation's benefits and not for Nation's deprivation.
